DESARROLLO INTERNACIONAL

**The Bridge Between
Data and Development**

PUENTE-DR.ORG

Letter from our CEO

Friends of Puente

We are honored to bring you the 2019-2020 Puente Annual Report. As we reflect on the work that took place during the past year -- our second full year in operation -- we are equally humbled and encouraged. Due to your generosity, we have been able to serve more people than ever before. Our impact increased nearly 400% from 2018-2019; our data collection platform is being used in 2 new countries; and our team has continued to grow as we find more people motivated to "be the bridge" in development.

Our approach to community development (outlined on pages 4-5) has been proven to work. This year we doubled our volunteer network and met over 40% of the needs we identified in Constanza. Through our community development training program and mobile application software, we are giving host-country nationals the tools they need to drive lasting change in their community. We have seen volunteers grow into true vehicles of change within their community. And, we are extremely encouraged by the progress our team has made over this past year, despite COVID-19 throwing a curveball at our plans (see our response on pages 16-17).

Our technology platform was built out with the mission of providing organizations with a collaborative, accessible approach to data collection. Through NGO partnerships, Puente's platform expanded into two new countries this year: Mexico and Haiti. Our surveys have been designed using the United Nations Sustainable Development Goals, allowing for easy input toward these global indicators. We believe nonprofits should collaborate to drive lasting change. We also believe collaboration should begin with the communities--the direct beneficiaries of initiatives.

This annual report highlights our progress toward creating a more collaborative international development ecosystem. This progress has only been made possible through your generosity and support. We are extremely grateful for each and every one of you!

Mil gracias!

Scott Coppa

4. Plan projects and activate mission-aligned partners to fund proposals

Our Partners.....	22
Our Financials.....	24

5. Monitor impact by re-surveying communities to track key indicators

OUR VOLUNTEERS

Building local capacity

Puente's training program gives more than just skills; it gives the tools, knowledge, and connections needed to ignite positive change in their homes and communities.

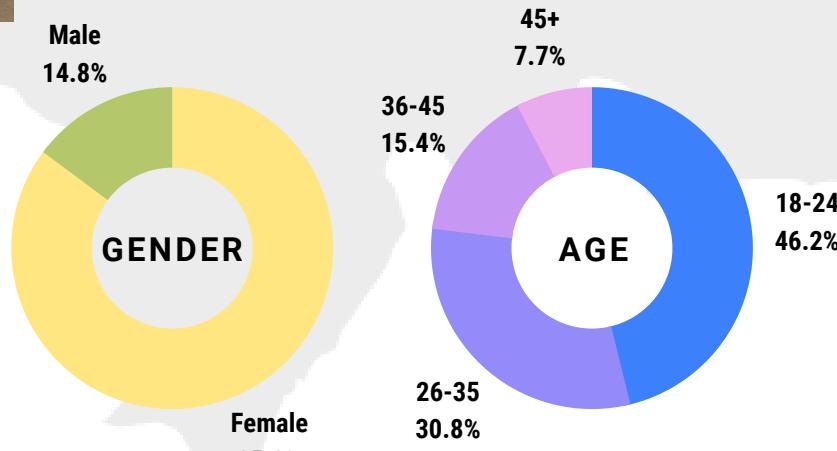

In the past year, our volunteer network doubled in size and made outstanding contributions across the Constanza region.

We completed a total of three community development courses, graduating 15 additional development practitioners. Our 27 volunteers drove lasting change in 17 communities across Constanza, implementing 20 projects and conducting 40+ educational lessons with beneficiaries.

Puente's impact begins and ends with these incredibly driven and talented volunteers. The success we've seen with this model in Constanza validates the potential of a locally-driven, capacity-focused strategy -- and we're excited to bring our model into new cities and regions this upcoming year.

FEATURED VOLUNTEER: VALENTIN BRIOSO

Valentin has been a tremendous addition to the Puente team since coming onboard in 2019. As a Project Supervisor, Valentin leverages his military background and leadership instincts to manage bathrooms and floors projects in four different communities. He was promoted from volunteer to Project Supervisor this past year, and has thrived as the leader of our construction efforts across the region.

tivated local leaders
ons they need to
e communities

A Rising Star Gets Promoted

Yinetza (Yina) Alvarez has emerged as a rising star amongst our volunteers. After coming on as a volunteer in 2019, Yina quickly rose to become a health promoter and has excelled in her new position. Yina has a knack for solving problems and finding a way to ignite change, even in these unprecedented times. To date, Yina has distributed 50+ water filters and 50+ hand-washing stations, and conducted 10+ educational lessons with recipients. On top of that, she follows-up with 75+ chronic condition patients every month to ensure their health is managed appropriately. Yina was recently promoted to Community Coordinator in Constanza -- felicidades, Yina!

YINETZA ÁLVAREZ

Our Health Promoters

Monitoring Chronic Conditions

Last year, Puente launched a health promoter initiative with our partners at Health Outreach Foundation (HOF). After HOF's medical missions, our promoters conduct monthly in-home check-ins with 200+ at-risk patients to monitor their vitals and ensure they're receiving necessary care and medications. Thanks to the tireless efforts of these promoters, we have been able to work with HOF and local clinics to improve long-term care plans for Constanza's critical patients.

ELBA MARTINEZ

MICHELLE BAUTISTA

YANIRIS VICENTE

TIVEN BUGGY

Tiven's passion for Water, Sanitation, and Hygiene (WaSH) began when he served as a Peace Corps Volunteer in the Dominican Republic. During his service, he came to understand the importance of WaSH at the individual level and constructed several latrines and a water well in his host community. Upon returning stateside, Tiven decided to pursue a Master's in Environmental Engineering in order to put his new passion into practice. During graduate school, Tiven continued serving underrepresented communities in Bolivia as the Design & Construction Lead for Engineers Without Borders. In his role as WaSH Director, Tiven leads the design and implementation of Puente's WaSH programming and projects, and forms partnerships with other like-minded WaSH orgs. He holds a Master's of Science from University of California - Davis and a Bachelor's of Arts from University of California - San Diego.

WASH DIRECTOR

SOFTWARE ENGINEER

JOSEPH MCCOMBS

Joseph comes to Puente with three years of software engineering experience and a passion for making a difference. Prior to Puente, he worked as a software engineer for various health projects at Notre Dame, including a COVID-19 statistical model and data collection application for a malaria study in Kenya. In addition to Puente, Joseph is a data engineer for Aunalytics based out of South Bend. Puente has been a way for Joseph to use his skills in a positive way and give back to the community at large. He holds a Bachelor's in Computer Science from Indiana University South Bend.

MATT ALBANO

Matt serves as Puente's Chief Accounting Officer, managing Puente's financial records, tax compliance and reporting. Prior to joining Puente, Matt worked at PricewaterhouseCoopers where he advised clients in both the public and private sectors. In addition to serving as Puente's Chief Accounting Officer, he works as a CPA for the tax department of Hedgeserv Corp in New York City, advising various hedge fund clients on tax reporting and process efficiency. Matt holds a Bachelor's of Science in Accounting from Notre Dame, where he met Puente co-founders Scott and Paul.

CHIEF ACCOUNTING OFFICER

UX DESIGNER

JON SPAHN

Argentina-born and California-raised, Jonatan is a UX designer based in Oakland, CA with a background in business operations and supply chain. While he got his professional start in marketing for a specialty-foods import company, Jonatan quickly found himself running their business operations. It was then that he discovered user experience (UX) design and fell in love. After graduating from a 10-week Bootcamp at General Assembly in San Francisco, Jonatan received his UX Design certificate and started work as a UX designer at TreatAnyone. When an opportunity arose to volunteer with Puente, Jonatan was quick to raise his hand. Knowing how fortunate he himself has been, he never wants to miss an opportunity to give back.

United Nations 2030 Sustainable Dev

Puente's technology has the capability to cover all 17 sustainable development goals. In 2019-2020 addressed the following SDGs set forth by the UN.

3 GOOD HEALTH AND WELL-BEING

4 QUALITY EDUCATION

5 GENDER EQUALITY

GOOD HEALTH & WELL-BEING

"Ensure healthy lives and promote well-being for all at all ages"

- Our health promoters program: **Target 3.8**.
- Our floors project: **Target 3.9**
- Our bathrooms project: **Target 3.9**
- Our water filters project: **Target 3.9**

QUALITY EDUCATION

"Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all"

- Our community development program: **Targets 4.4 and 4.7**

GENDER EQUALITY

"Achieve gender equality and empower all women and girls"

- Our community development program: **Target 5.5**

Development Goals

Inclusive development goals (SDGs). Our programming in United Nations:

WATER
QUALITY

6 CLEAN WATER
AND SANITATION

11 SUSTAINABLE CITIES
AND COMMUNITIES

CLEAN WATER AND SANITATION

"Ensure availability and sustainable management of water and sanitation for all"

- Our water filters project addressed **Target 6.1**
- Our bathrooms project addressed **Targets 6.2, 6.3, 6a and 6b**
- Our rainwater collection system addressed **Target 6a**

SUSTAINABLE CITIES & COMMUNITIES

"Make cities and human settlements inclusive, safe, resilient and sustainable"

- Our floors project: **Target 11.1**
- Our bathrooms Project: **Target 11.1**

Our users have spoken, and Puente has a 5 star rating in both app stores! We understand the importance of data in international development, so we strive to ensure users have a reliable and positive experience collecting it. And we're working hard on some exciting updates that will make it even easier for our users to understand needs and find solutions in the future. Stay tuned!

3k

Vital
records

We built Puente to make the right data available to the right audiences (like community leaders and NGOs) who can use it to design a better future and hold partners accountable. By putting users first and prioritizing collaboration, we have taken a different approach to data collection -- and it's proving effective. We have a growing team and a clear vision for enhancing our platform to drive greater impact.

HOPE TAMBALA

Co-founder & CTO

2019-20 Impact Overview

New Projects, New Communities

In the last 12 months, Puente's volunteer have used our data collection software. Together, we have leveraged this data to drive lasting change...

PUENTE POTTIES

Our volunteers have found 255 residents that lack access to sanitation facilities. This year, we met 21% of the need, constructing 56 bathrooms in 3 different communities. Communities have reported an improvement in environmental health and security.

3 GOOD HEALTH AND WELL-BEING

6 CLEAN WATER AND SANITATION

11 SUSTAINABLE CITIES AND COMMUNITIES

CEMENT FLOORS

Dirt floors lead to parasitic infections and respiratory issues. Our surveying efforts have identified 204 families in Constanza that live on dirt floors. We met 32% of the need, replacing a total of 66 dirt floors with cement and local materials.

3 GOOD HEALTH AND WELL-BEING

11 SUSTAINABLE CITIES AND COMMUNITIES

56 bathrooms constructed

66 cement floors implemented

183

BUT WHAT DOES
THIS MEAN FOR THE
BENEFICIARIES? 

re to analyze the needs of 2,000 Individuals in the Constanza Region.

CLEAN WATER FILTERS

34% of the Constanza residents we've surveyed drink tap water. With fiscal help from our partners Constanza Medical Mission, we distributed 183 ceramic water filters to families in need to ensure they are not drinking contaminated water.

3 GOOD HEALTH AND WELL-BEING

6 CLEAN WATER AND SANITATION

RAINWATER COLLECTION

Constanza receives more rainwater than Seattle, but 41% of the residents we surveyed have running water less than 3x per week. We harnessed this natural resource to pilot rainwater storage systems for three families. These families now have water at home almost daily, and spend much less time collecting it.

6 CLEAN WATER AND SANITATION

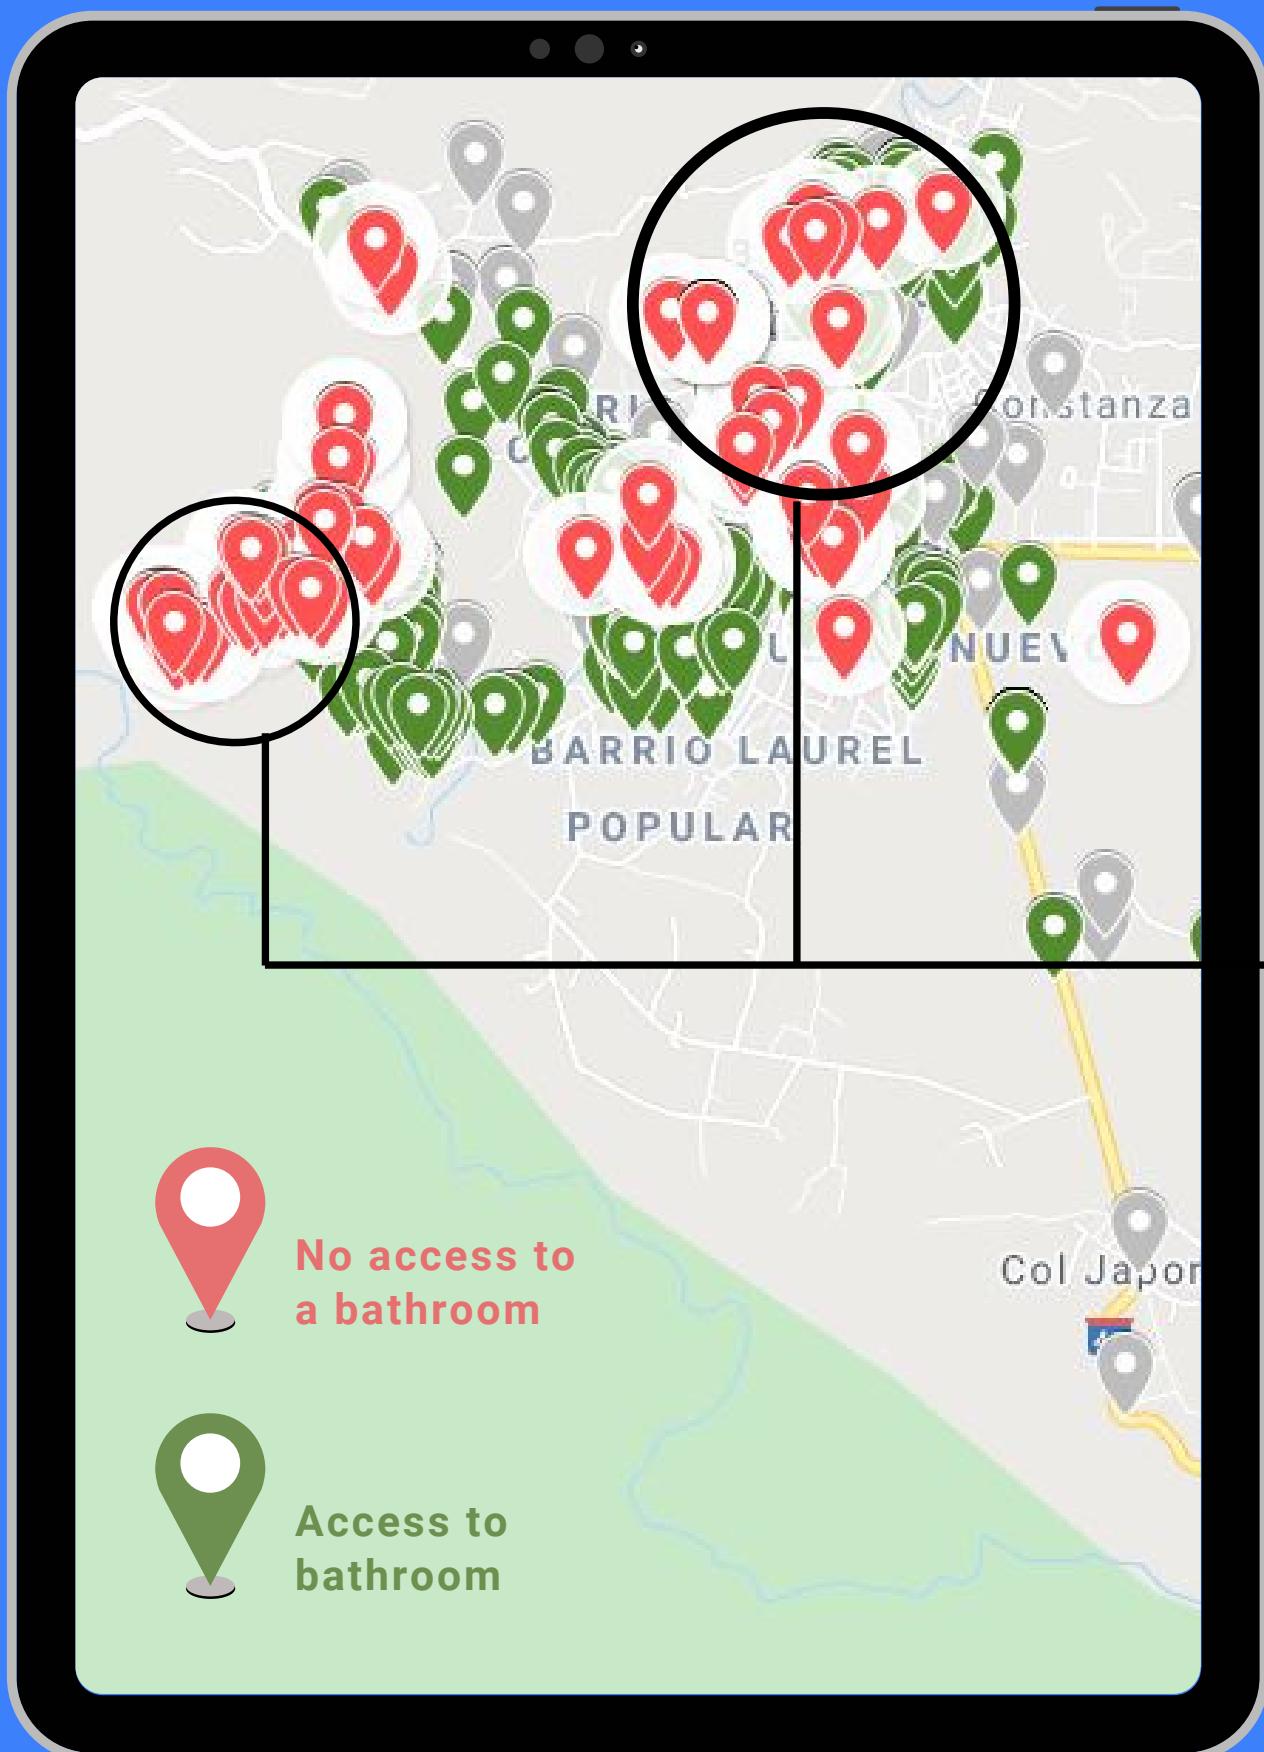

3 rainwater collection systems built

285 families participated in education programming

ceramic filters distributed

PARTNERS

Collaborative approach to development

**HEALTH
OUTREACH
FOUNDATION**
CONNECT. ACCESS. EMPOWER.

ONE WORLD SURGERY

- Provides surgical and primary care services to marginalized people in the Dominican Republic (San Pedro) and Honduras
- Puente's app allows OWS to find critical patients and match them with specialized doctors ahead of medical missions

HEALTH OUTREACH FOUNDATION

- Provides free healthcare services to hundreds of residents in the Las Flores community of Constanza, DR
- Puente's app allows HOF to track patient vitals over time
- Puente volunteers work with HOF to conduct 200+ follow-up patient visits per month and share data via our app

CONSTANZA MEDICAL MISSION

- Provides free medical services to hundreds of residents in the cities of Tireo and Constanza, DR
- Puente's volunteers and data help CMM find marginalized communities and distribute water filters to families in need

FRIENDS OF THE DR

- Coalition of returned Peace Corps Volunteers supporting sustainable projects and programs in the DR
- Provides grant funding to help Puente volunteers address problems seen in our community needs datasets
- Provided Puente volunteers with 4 grants in 2019-2020

RAYJON SHARECARE

- Supports local partners in Haiti and the DR to increase the capacity and well-being of their communities
- Puente's app helps their Haitian team track outcomes for nutritional, educational, and micro-lending programs

Our Takeaways: Gratitude & Optimism

"Puente's outstanding impact this year was only possible through the generosity of our supporters and partners. We ended the year in a strong financial position, and are now spending more aggressively to grow our impact and improve our technology. With a proven impact model, scalable technology, and continued support from people like you, we believe the sky is the limit for Puente"
